

SimAir™ Quick Connector

SimAir™ Quick Connectors are included with the purchase of both the Scanning Brookfield PlusTwo (SB+2) D2983 Insert Module and the SimAir™ Test Cell Assembly. The Coupling Top and Sleeve are provided with the module purchase, and the Coupling Bottom is included with the SimAir™ Spindle. The design of the Quick-Connect spindle-coupling accessory allows the swift attachment or removal of the Spindle from the viscometer shaft.

The benefits include:

- Dramatically reduces fluid disturbance to enhance test precision
- Reduces viscometer wear
- Eliminates cross threading
- User friendly & saves time
