Most Important Symptoms/Effects:

Defatting of the skin.

Indication of immediate medical attention and special treatment needed:

If necessary, treat symptomatically.

Section 5. Fire-fighting measures

Extinguishing media

- Suitable Extinguishing Media:** Use water fog, foam, dry chemical or carbon dioxide (CO₂)
- Unsuitable Extinguishing Media:** Do not use a solid water stream as it may scatter and spread fire.

Section 6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures:

Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. If significant spillages cannot be contained, local authorities should be advised.

Methods and materials for containment and cleaning up:

Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Dike the spilled material, where possible. Absorb in vermiculite, dry sand or other non-combustible absorbent material then place into containers. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Environmental Precautions:

Prevent entry into waterways, sewer, basements or confined areas. Avoid discharge to the aquatic environment. Avoid discharge into drains, watercourses or onto the ground. If the product contaminates rivers and lakes or drains, then inform the respective authorities.

Section 7. Handling and storage

Precautions for Safe Handling:

Do not breathe dust, fume, gas, mist, vapors or spray. Wash hands after handling and before eating. Do not get this material in contact with eyes. Avoid contact with skin. Avoid prolonged exposure. All handling should take place in well-ventilated area. Shower after work. Remove and wash contaminated clothing promptly.

Conditions for Safe Storage:

Store locked up. Keep away from heat, sparks and open flame. Store in a well-ventilated place.

Section 8. Exposure controls/personal protection

Occupational Exposure Limits:

OSHA	Component	Type	Value
	Petroleum distillates, solvent-dewaxed light paraffinic	PEL	5mg/m3

ACGIH

Component	Type	Value
Petroleum distillates, solvent-dewaxed light paraffinic	TWA	5mg/m3

Appropriate Engineering Controls:	Adequate ventilation should be provided whenever the material is heated or mists are generated. Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.
Individual Protection Measures, such as Personal Protective Equipment:	
Eye/Face Protection:	Goggles/face shield are recommended.
Hand Protection:	Polyvinyl alcohol or nitrile-butyl-rubber gloves are recommended.
Skin and Body Protection:	Chemical/oil resistant long-sleeve clothing is recommended. Launder contaminated clothing before reuse.
Respiratory Protection:	If vapors/mist concentration exceed the exposure limit(s), an appropriate certified respirator must be used.
General Hygiene Considerations:	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.
